Location: Mumbai-70

Objective

A passionate and driven Full Stack Java Developer with hands-on experience in building and deploying web applications. Eager to contribute technical expertise in Java, front-end technologies, and web development practices to a dynamic team. Focused on continuous learning and development to improve coding skills and solve real-world problems.

Technical Skills

- **Programming Languages:** Java, JavaScript, HTML, CSS, SQL
- **Front-End Technologies:** HTML5, CSS3, JavaScript, React
- **Back-End Technologies:** Java, Spring Boot, Hibernate, RESTful Web Services
- **Database:** MySQL
- **Version Control:** Git, GitHub
- **Development Tools:** EditPlus, Eclipse, Visual Studio Code, Postman
- **Other Tools:** Maven

Education

Bachelor of Science in Information Technology

Mumbai University —Mumbai

June 2022 – May 2025

- Relevant coursework: Data Structures, Object-Oriented Programming, Databases, Web Development, Software Engineering

Projects

Quiz Application | <https://github.com/Sami-Khan28>

Description: A **Quiz Application website** is an interactive platform where users can take quizzes on various topics. It features user authentication, timed questions, instant scoring, and leaderboards. Admins can create, update, and manage quizzes and question banks.

Key Features:

- **User Authentication:** Secure login/signup for users and admins.
- **Interactive Quizzes:** Timed questions with instant feedback and scoring.

- **Admin Dashboard:** Tools to create, edit, and manage quizzes and question banks.
- **Leaderboards:** Real-time score tracking and ranking of top performers.

Netflix-Clone | <https://github.com/Sami-Khan28>

Description: A **Netflix Clone** is a video streaming platform that lets users browse, watch, and manage movies and shows. It features user login, categorized content, personalized recommendations, and a responsive video player. Admins can manage content through a dedicated dashboard.

Key Features:

- **User Authentication** – Secure login/signup with role-based access.
- **Home & Browse Pages** – Categorized content (Trending, New Releases, My List).
- **Video Streaming** – High-quality video player with subtitles and playback controls.
- **Search & Filter** – Search bar with genre, year, and keyword filtering.
- **User Features** – Watch history, recommendations, add to "My List".
- **Admin Dashboard** – Manage content uploads, categories, and metadata.
- **Responsive UI** – Mobile-friendly design with smooth navigation.
